

## Some of our available treatments

**Dental implants** look natural and attractive because teeth will look and feel similar to those replaced. As a result, many patients report increased confidence.

Plan savings on this treatment  
£220 - £1500

**Facial aesthetics** include anti-wrinkle treatments to smooth out lines and wrinkles, dermal fillers to enhance lips, cheeks and jaw lines, plasma injections to rejuvenate skin, as well as non-surgical thread face lifts to improve sagging.

Plan savings on this treatment  
£30 - £80

**Orthodontic treatment** is used to improve the appearance, position and function of crooked or abnormally arranged teeth.

Plan savings on this treatment  
£350 - £700

**Cosmetic dentistry** ranges from simple tooth whitening to multidisciplinary team care to help our patients wear the smile they deserve.

### Terms and conditions:

# Welcome

May we take this opportunity to welcome all new and existing patients to The Sandford Dental Implant and Cosmetic Centre. We are a purpose-built, 'Centre of Excellence' dental practice in the centre of Bexleyheath which offers high quality general and cosmetic dentistry to private patients.

At The Sandford, our aim is to help you to achieve a healthy, attractive smile, so that you can smile again with confidence.

We specialise in providing a personal and friendly service that is tailored specifically to your needs. Many of our patients come here because of personal recommendation, and we strive to maintain our standards by giving first class quality treatment at every visit.

We want to reward and look after our patients. We proudly offer a dental care plan for our discerning patient base to help fulfil their oral health needs.

The dental care plan covers examinations, hygiene visits and any necessary radiographs. Worldwide dental accident and emergency cover is also included. For those patients who require or wish to have aesthetic or advanced treatments, discounts are provided. A summary table of dental care plan benefits is provided overleaf.

Our modern health approach with continuing care means:

- Fewer fillings
- Less dental decay
- Less likelihood of toothache
- More attractive teeth
- More choice
- Reduced costs
- Helping to keep your teeth for life

## Case examples

### Case 1

Mrs Jones attends every 6 months for a dental examination.

Having had extensive treatment over the years she values the benefits of prevention and also attends the hygienist 6 monthly. Over the last year she has had a root canal treatment, crown and a white filling.

If she had been on the dental care plan her overall savings would have been **£144.60**.

Treatment	Private Fees	Plan Fees
Examination	2 x £48 = £96	£0
Hygienist visits	2 x £55 = £110	£0
White fillings	£150	£135
Root treatment	£400	£360
Crown	£600	£540
Yearly plan fees		£176.40
Total paid	£1356	£1211.40

*"Mrs Jones would have saved £144.60 as a dental care plan member."*

### Case 2

Mr Smith has some unsightly crowns and a large gap.

He no longer wants to be self-conscious when he smiles and wishes to have cosmetic treatment to improve his current situation.

If he had been a dental care plan member, his savings would have been **£807.60**.

Treatment	Private Fees	Plan Fees
Examination	2 x £48 = £96	£0
Hygienist visits	2 x £55 = £110	£0
6 high aesthetic crowns	£4500	£4050
Specialist consultation	£130	£117
CT scan	£150	£135
Bone Graft	£600	£540
Implant	£2400	£2160
Yearly plan fees		£176.40
Total paid	£7986	£7178.40

*"Mr Smith would have saved £807.60 as a dental care plan member."*
